Part 2 Eligibility Requirements

Section 1 Producer Eligibility

100 Eligible Producer

A Producer Eligibility

An eligible producer is a person who:

- produced honey in the United States during the calendar year for which the loan is requested and extracted the honey on or before December 31 of the applicable crop year
- for loans, has a continuous beneficial interest in the honey from the time the honey was extracted through the date of repayment of the loan
- is responsible for the risk of keeping the bees and producing the honey.

101 Ineligible Producer

A Ineligibility

Ineligible producers are producers who:

have not reported acreage on FSA-578 for the current crop year according to 2-CP

Note: Acreage reports must be obtained before benefits are received **only** if the producer has cropland.

•*--do **not** comply with and/or violate WC and HELC provisions according to 6-CP

Note: If a producer does **not** have cropland, the producer must write in AD-1026, item 13, "I am not associated with any specific farm" and sign and date AD-1026.--*

- are convicted under Federal or State law of a controlled substance violation according to 1-CM, Part 38
- •*--have an unresolved delinquent non-tax debt to the Federal Government.--*

102 Market Loan Gain and LDP Payment Limitation

A Applicability

[7 CFR 1421.29] A \$75,000 payment limitation for honey applies to:

- LDP's
- market loan gains from cash loan repayments at a rate less than the principal, plus interest.

See 1-PL, Part 2 for payment limitation procedures.

B Filing Applicable Forms

For payment limitation, the applicable CCC-502 must be filed according to 1-PL, and a determination made for:

- market loan repayments, before:
 - locking-in a repayment rate
 - repaying at a rate less than principal and charges, plus interest
- LDP's, before approving the payment.

Encourage producers who do not have an applicable CCC-502, approved according to 1-PL, to complete the appropriate forms before application for loan or LDP to allow sufficient time for a determination to be made.

103 Monitoring Payment Limitation

A Basic Producer Information

[7 CFR 1421.4] The following producer information is needed for each individual or entity requesting LDP or market loan gain:

- "person" determination
- "actively engaged in farming" status
- permitted entity share
- multiple-county status
- previously received benefits subject to limitation
- payment limitation balance
- market loan gain amount
- LDP amount
- •*--adjusted gross income.--*

B "Person" Determination

The "person" determination is made according to 1-PL, including the combined entity status. Determine combinations by printing the combined entity report according to 1-PL.

C "Actively Engaged in Farming" Status and Percent of Cropland Factor

Determine the "actively engaged in farming" status and applicable percent of cropland factor for each farming operation from which the commodity was produced according to 1-PL.

D Permitted Entity Share

Determine the permitted entity share according to 1-PL.

110 Honey Eligibility (Continued)

B Waiver of Requirements

If the producer agrees to forgo a marketing assistance loan and request LDP, eligible container requirements are considered waived.

203 LDP Rates

A Effective LDP Rate

The LDP rate is the rate in effect on the day of the request.

The request date is the date CCC-633 (Honey) and CCC-633 LDP are received in the County Office. County Offices shall date stamp CCC-633 (Honey) and CCC-633 LDP to verify the date the request is received.

--If the FAXed CCC-633 (honey) and CCC-633 LDP include date and time printed by the FAX machine, a date-stamp is not required.--

B LDP Rate

The LDP rate is determined by the amount the applicable commodity loan rate exceeds the CCC-determined value for where the commodity is stored for CCC-633 LDP.

The LDP rate will be announced on a monthly basis. Use the rate in effect until the next rate change.

For eligible commodities stored out of the United States, determine the LDP rate based on the County Office where LDP is requested.

203 LDP Rates (Continued)

C Determining LDP

LDP is calculated by multiplying the LDP rate times the LDP quantity requested.

D LDP Rate for FAXed CCC-633 (Honey) and CCC-633 LDP's

For CCC-633 (Honey) and CCC-633 LDP FAXed applications, the LDP rate is the rate in effect when CCC-633 (Honey) and CCC-633 LDP are received in the County Office, if the LDP request is completed.

- •*--be at least a 5-gallon but **not** greater than 330-gallon capacity--*
- be suitable for use in contact with honey
- free from applicable dust or rust.

Reject the lot if at least 5 percent or more containers do not meet the requirements in this subparagraph.

Give producers an opportunity to transfer honey into eligible containers before continuing with the spot check.

Notify the producer that the lot of honey must be transferred into eligible containers within 15 calendar days from notification and follow this table.

403 Completing Spot Checks

A Reviewing Documentation

Once the site visit is complete or production evidence is submitted, County Offices shall:

- calculate the quantity provided on submitted documentation, as applicable
- *--Example: One gallon of honey equates to 12 pounds of honey; therefore, the following calculations may be used:
 - 5-gallon metal container equals 60 pounds
 - 30-gallon steel drum equals 360 pounds
 - 55-gallon steel drum equals 660 pounds.--*
- review the documentation submitted to ensure that all production evidence requirements are met.

B Verifying Loan and LDP Quantity

County Offices shall:

- verify the quantity determined in subparagraph A
- compare the determined quantity to the:
 - outstanding loan quantity
 - market gain quantity
 - LDP quantity.

C Tolerance Level

The tolerance level for loans and LDP's is 10 percent.

For spot-check shortages **within** the tolerance level, CED's have the authority to determine whether a violation occurred according to 8-LP, Part 6.

Part 8 Basic Loan Settlements
